Re: Recommendation of Bulk Energy

My name is John Dolbel and I'm the Secretary & Manager of Gulgong RSL in NSW.

One of my responsibilities is to organise electricity contracts for my club. Of course I want to get the best deal, but energy is quite a specialised area and market prices are always changing, so it can be a challenging job.

I went to Bulk Energy, who tendered my account to the energy retailers, and came back with an offer from Alinta Energy that will save my club about \$24,000 per year, compared what we were paying with our previous retailer.

Bulk Energy's customer service has been great, too—I've worked with Anton, who has always been responsive and very friendly.

I don't have any hesitation recommending Bulk Energy as an independent electricity broker.

Sincerely,

John Dolbel
Gulgong RSL
